

A Philanthropic Partnership for
Black Communities

KNOWLEDGE, TRAINING & TECHNICAL ASSISTANCE

The Black Philanthropic Resource Library serves as a repository of information to increase awareness among our members and the broader field of philanthropy of the issues facing Black communities. It highlights various indicators to inform this audience of various indicators of well-being and possible investment strategies to address them. The goal is to provide our members and other colleagues in the field with tools for incorporating effective and responsive philanthropy in Black communities within their overall grantmaking strategies.
